Summary

Experienced data professional with a formal background in machine learning, mathematics, and data science. I have a proven ability to manage and modernize legacy data platforms to meet modern business needs. Equally adept at working independently and collaboratively, I navigate ambiguity and uncertainty to deliver high quality solutions on time and on budget.

Skills

Python | SQL | R | Bash | Java | PowerShell | JavaScript | Spark | Snowflake | Google Cloud | Oracle | Docker | Jenkins | Git | GitHub | PyTorch | ML | RL | AI | Control-M | ServiceNow | Azure

Work Experience

University of Rhode Island

Kingston, Rhode Island

GRADUATE INFORMATION TECHNOLOGIST

May, 2025 - Present.

- Responsible for managing a team of around fifty undergraduate IT workers comprising tier 1 support services at the University of Rhode Island. I manage and track projects and deliverables, schedule service desk staff, provide oversight of student workers and act as a technical consultant on a variety of student-driven projects.

University of Rhode Island

Kingston, RI

GRADUATE TEACHING ASSISTANT

Spring 2026.

- Graduate teaching assistant for DSP-568, Data Science for Business

University of Texas at Austin

Austin, Texas

LEARNING FACILITATOR

May, 2025 - August 2025.

- Member of the instructional staff for an offering of *Reinforcement Learning: Theory and Practice* (Instructor of record: Peter Stone.)

Bryant University

Smithfield, Rhode Island

MATHEMATICS SPECIALIST

Nov. 2024 - May 2024.

- Mathematics Specialist with the Academic Center of Excellence at Bryant University. I provided academic support to undergraduate students in a diverse range of college mathematics courses in individual and small group settings.

Self - Employed

Providence, Rhode Island

FREELANCE DATA CONSULTANT

October, 2024 - Present.

- Independent data consultant.

CVS Health

Woonsocket, Rhode Island

DATA ENGINEER

May, 2023 - October, 2024

- Lead developer for a SQL transpilation framework (written in Python) used to migrate approx. 4,000 tables from MySQL to Snowflake and BigQuery in around eight weeks.
- Lead developer for a CI/CD modernization project. Successfully led efforts to retire legacy CI/CD built around Subversion and QuickBuild and replace it with CI/CD using Git, GitHub, Jenkins, Flyway and Octopus Deploy.
- Lead developer for a new production support ticketing platform. I leveraged low / no code tools to create a single integrated platform leveraging automation for tracking and assigning production support issues. Led to a significant reduction in manual effort around production support and improved turnaround times for production support incidents.

CVS Health.

Woonsocket, Rhode Island

SENIOR APPLICATION ANALYST

June, 2022 - April, 2023

- Completed POC work to help lay the foundation for a large scale migration to Google Cloud.
- Lead developer for a Python based data ingestion framework enhancement allowing for metadata driven data extraction job creation.
- Snowflake development Lead.

CVS Health

Woonsocket, Rhode Island

APPLICATION ANALYST

June, 2021 - June, 2022

- Snowflake development lead.

Georgia Institute of Technology

Atlanta, Georgia (Remote)

INSTRUCTIONAL ASSOCIATE

Aug. 2021 - Dec. 2022

- Contributed to autograder development.
- Contributed to set up of CI/CD for course autograders.
- Revamped the Google Cloud portion of the Cloud Computing homework module.

Providence Public Schools

Providence, Rhode Island

DATA SPECIALIST

Aug. 2020 - June. 2021

- Rewrote legacy scripts from R to Python, improving the maintainability and performance of the existing automation framework.
- Built out the district's data warehouse.
- Used Python to automate business processes.

Georgia Institute of Technology

Atlanta, Georgia

GRADUATE TEACHING ASSISTANT

Dec. 2017 - May. 2020

- Held regular office hours.
- Assessed and graded student work.
- Monitored online discussion forums.

Education

The University of Rhode Island

M.S. in Quantum Computing (In Progress)

RELEVANT COURSEWORK

Kingstown, Rhode Island

- Methods of Mathematical Physics II, Quantum Mechanics I, Quantum Computing I, Condensed Matter Physics I, Electrodynamics I, Theory of Computation, Scientific Machine Learning, Advanced Quantum Computing

The University of Texas at Austin

M.S. in Data Science

RELEVANT COURSEWORK

Austin, Texas

- Natural Language Processing, Deep Learning, Advanced Predictive Modeling, Regression Methods, Data Science for Health Discovery and Innovation, Data Structures and Algorithms, Regression Modeling

Georgia Institute of Technology

M.S. in Computer Science

RELEVANT COURSEWORK

Atlanta, Georgia

- Artificial Intelligence, Machine Learning, Reinforcement Learning, Bayesian Statistics, Advanced Algorithms, Software Development Processes, Data and Visual Analytics

Rhode Island College

M.A. in Mathematics

RELEVANT COURSEWORK

Providence, Rhode Island

- Linear Algebra, Difference & Differential Equations, Real & Complex Analysis, Abstract Algebra, Topology

Rhode Island College

B.A. in Philosophy & Mathematics (physics minor)

RELEVANT COURSEWORK

Providence, Rhode Island

- Probability & Mathematical Statistics

Extracurricular Activity

University of Rhode Island Graduate Student Senate

Kingston, RI

SENATOR

Spring 2026 - Present

- GSA Senator focused on Technology and Quality of Life

Fannon Institute for Student Success at the University of Rhode Island

Kingston, RI

PASS COACH

Spring 2026.

- Mentored first year undergraduate students as part of an academic recovery program.
- Managed a case load of six students throughout the Spring '26 semester.
- Met weekly with students to track academic progress and monitor student well-being.

Certifications

Google

May. 2024

- Cloud Digital Leader

- GitHub Foundations
